SUMMARY

Frontend Developer with hands-on experience building and deploying production-grade web and mobile applications. Proficient in React, TypeScript, Next.js, and React Native, with practical DevOps experience spanning Docker, Nginx, CI/CD pipelines, and self-hosted VPS infrastructure. Comfortable working across the full delivery lifecycle — from UI development to cloud deployment — and actively expanding into full stack engineering.

EXPERIENCE

Software Engineer	Chautari Digital · Satdobato, Lalitpur
Frontend & DevOps	Feb 2024 – Apr 2025 (1 yr 3 mos)
- Developed web and mobile frontends using React, Next.js, TypeScript, and React Native across multiple production projects. - Contributed to LMKZ (Link My Kidz), a child management platform — built frontend screens for daily insights, ECD tracking, and AI-powered child sentiment analysis; integrated with a NestJS backend and AWS S3 media storage. - Contributed to Project Brain, an internal AI platform powered by the Claude API — implemented API workshop endpoints, delta verification UI (surfacing missing/unused APIs), and AI-generated design prompts per screen; also set up the CI/CD deployment pipeline via GitHub Actions. - Built and deployed a full-stack Next.js application (blurkart.com) on a NepalCloud VPS with Nginx reverse proxy, Docker containerization, and PostgreSQL in production. - Managed Cloudflare DNS configuration and led domain recovery/escalation for production domains.	

EDUCATION

Bachelor of Computer Applications (BCA) — Software Development	2024 – 2028 (Expected)
VS International College, New Baneshwor, Kathmandu	

SKILLS

Frontend	HTML, CSS, JavaScript, React, TypeScript, React Native, Next.js
DevOps & Infra	Docker, Nginx, CI/CD, GitHub Actions, Linux VPS, Cloudflare DNS
Backend / DB	PostgreSQL, PocketBase, REST APIs
Tools	Git, GitHub, VS Code

PROJECTS

LMKZ (Link My Kidz)

NestJS, React, React Native, TypeScript, AWS S3, PostgreSQL

Child management platform for schools that keeps parents informed throughout the school day. Features include daily insights (attendance, meals, mood, checkout), Early Child Development (ECD) tracking, and AI-powered Child Sentiment Analysis that evaluates a child's emotional patterns and surfaces personality insights for parents. Built the frontend (web + mobile) and contributed to backend integration using NestJS and AWS S3 for media storage.

Project Brain

React, Next.js, TypeScript, Claude API, Docker, GitHub Actions

AI-powered requirements and prompt engineering platform used internally to accelerate development workflows. Product Owners upload requirements (overview, acceptance criteria) and the system uses the Claude API to analyze module architecture, generate design prompts per screen, and run delta verification — comparing PO vision against saved API endpoints to surface missing or unused APIs. Contributed as a frontend engineer (React/Next.js), implemented and saved API endpoints, fixed bugs, and set up CI/CD deployment pipeline via GitHub Actions.

JobFinder

React Native, REST API

Mobile app that fetches and displays currently available job listings via external API.

<https://github.com/echokarun/Job-fnder>

Aora

React Native, Appwrite

Mobile video-sharing app with trending videos feed and upload functionality.

<https://github.com/echokarun/Aora>

Blurkart

Next.js, React, TypeScript, PostgreSQL, Docker, Nginx

E-commerce platform for goggles and contact lenses, deployed on a NepalCloud VPS with full DevOps setup including Nginx reverse proxy, Docker containerization, and GitHub Actions CI/CD.

<https://blurkart.com>

Horizon

React, Next.js, TypeScript

Modern banking platform UI with account management and transaction features.

<https://github.com/echokarun/Bank-app>

Ryde

React Native, Expo, Google Maps API

Mobile ride-booking app similar to Uber, featuring real-time location services and map integration.

<https://github.com/echokarun/Ryde>

AWARDS

Company Hackathon — 1st Place · Chautari Digital · Nov 2025

Led team collaboration to build and ship features under time pressure, taking first place among competing teams.

LANGUAGES

Nepali — Native

Hindi — Fluent

English — Conversational
